

THE 7TH INTERNATIONAL DIP SYMPOSIUM
 DIABETES, HYPERTENSION, METABOLIC SYNDROME
 &
 PREGNANCY
 MARCH 14-16, 2013 - FLORENCE, ITALY

Key	Postgraduate Course	Plenary Session	Debate Session
	Satellite Session	Parallel Sessions	Social Events
	FIGO EDUCATIONAL SEMINAR ON NEW CHALLENGES IN MATERNAL HEALTH <i>Organized by:</i> Capacity Building in Education and Training Committee (FIGO) and the World Diabetes Foundation (WDF)		
Wednesday, March 13, 2013			
	Hall B		
09:00-11:00	<p><u>FIGO/WDF Postgraduate Course:</u></p> <p>Greetings: Sabaratnam Arulkumaran, President FIGO Luis Cabero-Roura, Spain, Chairman of CBET committee , FIGO Anil Kapur, WDF Gian Carlo Di Renzo, President DIP Moshe Hod, President DIP</p> <p><u>A practical approach to GDM – From The Bench to the Bedside</u> Chairpersons: Boyd Metzger, USA and Moshe Hod, Israel</p> <p>Diagnosis of GDM - A suggested consensus David McIntyre, Australia</p> <p>Nutritional treatment for the GDM patient Lois Jovanovic, USA</p> <p>When to start and what Pharmacological agent to choose? Mark Landon, USA</p> <p>Diabetes and pregnancy and the drug dilemma: Insulin /Insulin Analogues Elisabeth Mathiesen, Denmark</p> <p>Antenatal follow up and decision concerning timing and mode of delivery Gerry Visser, The Netherlands</p>		

	The neonate of the diabetic mother Umberto Simeoni, France		
	Round table discussion with the speakers		
11:00-11:30	<i>Coffee Break</i>		
	Hall B	Hall C	Hall D
11:30-14:00	<u>FIGO/WDF Postgraduate Course : The Developing World</u> Chairpersons: Anil Kapur, Denmark and Luis Cabero-Roura, Spain	<u>Postgraduate Course: Medtronic Workshop New Technologies: Practical Course on Pumps and Sensors</u>	<u>Workshop: How to evaluate National data of Cost Effectiveness</u>
	11:30-12:10 Presidents overview : Women's rights and access to health in the developing world – The FIGO View Sabaratnam Arulkumaran, UK	Insulin Pump Therapy in Pregnancy	
	12:10-12:30 Chairman of CBET committee overview: Maternal Mortality in the developing world – The Inequity Luis Cabero-Roura, Spain	Continuous Glucose Monitoring (CGM) in Pregnancy	
	12:30-12:50 Anemia during pregnancy - A controlled risk of maternal mortality Gian Carlo di Renzo, Italy	How to use CareLink for Data Management and Therapy Optimization	
	12:50-13:10 Maternal health and NCDs – implications for global health and development – the threat, the opportunities and the barrier Anil Kapur, Denmark	Paradigm Veo, sensor augmented pump-Hands-on session, part 1	
	13:10-13:30 Diabetic Pregnancy in the developing world – a pragmatic approach - today and beyond Moshe Hod, Israel	Paradigm Veo, sensor augmented pump-Hand-on session, part 2	
	13:30-14:00 Round table discussion	Cases: The Use of Professional CGM - iPro2	
14:00-15:00	<i>Lunch Break</i>		
	Hall B	Hall C	Hall D

15:00-17:30	<p><u>FIGO/WDF Postgraduate Course:</u> <u>Hot Topics in Diabetic Pregnancy</u> <i>Chairpersons:</i> Nicolai Lohse, Anil Kapur and Moshe Hod</p>	<p><u>Postgraduate Course: Medtronic Workshop (Contd.)</u> <u>New Technologies: Practical Course on Pumps and Sensors</u></p>	<p>14:00-17:30 <u>Postgraduate Course:</u> <u>New Technologies and their Application in Diabetic Pregnancies</u> <i>Chairpersons:</i> Annunziata Lapolla, Italy & TBA</p>
	<p>15:00-15:30 Concept of fetal programming and early origins of health Umberto Simeoni, France</p>		<p>14:00-14:30 CSII and continuous glucose monitoring: State of the art Paolo Di Bartolo, Italy</p>
	<p>15:30-16:00 Is screening and integrated care for GDM cost effective? Nicolai Lohse, Denmark</p>		<p>14:30-15:00 How to interpret retrospective CGM, and how to use these data in optimizing diabetes therapy. A professional perspective Giorgio Grassi, Italy</p>
	<p>16:00-16:30 Glycemic goals in diabetic pregnancy and defining “good control”- Maternal and Fetal perspective Yariv Yogev, Israel</p>		<p>15:00-15:30 How to manage data obtained from real time glucose monitoring? A patient oriented perspective</p>
	<p>16:30-17:00 Diabetes and pregnancy and the drug dilemma: Oral hypoglycemic agents Denice Feig, Canada</p>		<p>15:30-16:00 Sensor augmented pumps (SAP): A step towards closure of the loop</p>
	<p>17:00-17:30 Round table discussion</p>		<p>16:00-16:30 How to program CSII in diabetic pregnancies (when to start, what basal rate, what timing of bolus) Daniela Bruttomesso, Italy</p>
			<p>16:30-17:00 How to program CGM and SAP in diabetic pregnancies (glucose targets, alarms, algorithms for correction) Elisabeth R Mathiesen, Denmark</p>
			<p>17:00-17:30 General discussion</p>

Thursday, March 14, 2013

Hall A

08:00-08:15	<p><u>Opening Ceremony</u> Welcome from Presidents, Chairpersons, Diabete Italia and Local authorities</p>
08:15-09:30	<p><u>Setting the Congress Scene:</u> Chairpersons: TBA</p>
	<p>08:15-08:40 Facing the Noncommunicable Diseases (NCD) Global Epidemic – The Battle of Prevention starts in Utero - The FIGO Challenge Sabaratnam Arulkumaran, President FIGO, UK</p>
	<p>08:40-09:05 Gestational Diabetes as one of the 'Great Obstetrical Syndromes': Biological, Diagnostic and Therapeutic Implications Roberto Romero, USA</p>
	<p>09:05-09:30 Non-Invasive Prenatal Predictors of Maternal and Fetal Disease – Closing the Gap</p>
09:30-10:00	<p><i>Coffee Break, Exhibition & Poster Viewing</i></p>
10:00-12:00	<p><u>From a Recommendation to Global Health Care Policy Change</u> Chairpersons: Moshe Hod, Israel and Stephano Del Prato, Italy</p>
	<p><u>A. Setting The Scene</u></p>
	<p>10:00-10:20 GDM – A Clinical Entity Jeremy Oats, Australia</p>
	<p>10:20-10:40 Diagnosis of GDM – Current and Future Boyd Metzger, USA</p>
	<p>10:40-11:00 Is Treatment of GDM Effective? Mark Landon, USA</p>
	<p>11:00-11:20 Is Treatment of GDM Cost Effective? Nicolai Lohse, Denmark</p>
	<p><u>B. Changing a Health Care Policy- From a Study to a National Policy</u></p>
	<p>11:20-11:28 Diagnosis of GDM – facing a new challenge Chairman, National committee on GDM diagnosis, Moshe Hod, Israel</p>
	<p>11:28-11:36 The National Implications President of the Israeli Society of Ob&Gyn, Moshe Ben Ami, Israel</p>

	11:36-11:44 Analysis of the Israeli HAPO-Study data for making locally-relevant health policy decisions The National Institute of Research, Ofra Kalter, Israel	
	11:44-11:52 Cost Effectiveness - Mathematical Model Evaluation of the HMO's Cohort The HMO management (Clalit Health Services), Nicky Liberman, Israel	
	11:52-12:00 The Ministry of Health Evaluation Director General - Ministry of Health Israel, Roni Gamzu, Israel	
12:00-14:00	12:30-14:00 <i>Industry Lunch Satellite Symposium - Alere</i>	<i>Lunch, Exhibition and Poster Viewing and Poster Walk Sessions</i>
14:00-15:10	<i>A. Changing a Health Care Policy – Towards a Consensus of Consensuses Highlights from the NIH Consensus Conference: Diagnosing GDM</i> <i>Chairperson:</i> Donald Coustan, USA	
	14:00-14:10 Overview of the consensus process, background of the topic and the key questions Catherine Spong, USA	
	14:10-14:20 IADPSG perspective David McIntyre, Australia	
	14:20-14:30 WHO perspective Gojka Roglic, Switzerland	
	14:30-14:40 NICHD perspective Mark Landon, USA	
	14:40-14:50 IDF perspective Stephen Colagiuri, Australia	
	14:50-15:00 WDF perspective (Developing World) Anil Kapur, Denmark	
	15:00-15:10 Wrap up - The panel statement Catherine Spong, USA	
15:10-16:00	<i>B. Future Priorities in the GDM Research</i> <i>Chairpersons:</i> Boyd Metzger, USA and Catherine Spong, USA	
	15:10-15:15 The HAPO Follow Up (HAOFU) Study Boyd Metzger, USA	

	15:15-15:20 Do we need a trial of glucose testing in early pregnancy? David McIntyre, Australia		
	15:20-15:25 Do we need new trials to demonstrate effects of GDM treatment on the offspring? Are they feasible? Mark Landon, USA		
	15:25-16:00 Round table discussion - How do we cope with the new challenges of GDM? All participants		
16:00-16:30	<i>Coffee Break, Exhibition & Poster Viewing</i>		
	Hall A	Hall B	Hall C
16:30-18:30	<u>Obesity and Pregnancy Outcome</u> <i>Chairpersons:</i> Roberto Vettor, Italy & Yariv Yogev, Israel	<u>Fetal Congenital Anomalies</u> <i>Chairpersons:</i> Arnon Wiznitzer, Israel & TBA	<u>Challenges of Diabetes in Pregnancy in Low- and Middle-Income Countries - IDF Session</u>
	16:30-16:50 Obesity in obstetrics - A global epidemic Mario Merialdi, WHO, Switzerland	16:30-16:50 From the bench - Vitamin supplementation in pregnancy to avoid pregnancy complications including malformations Ulf Eriksson, Sweden	16:30-16:50 The global diabetes epidemic: Epidemiological trends in women, diabetes and reproductive health
	16:50-17:10 Obesity and Reproduction: Maternal and Fetal Risks and Outcome Barbara Luke, USA	16:50-17:10 From the bedside - Congenital anomalies in Diabetes Antoni Borrell, Spain	16:50-17:10 GDM diagnostic criteria: Challenges in translation and implementation in a resource-poor setting
	17:10-17:30 Does it matter what pregnant women eat? Impact of maternal nutrition on pregnancy outcome Fionnuala McAuliffe, UK	17:10-17:30 MRI Diagnosis of Congenital Anomalies in Diabetes; Use or Abuse? Daniella Prayer, Austria	17:10-17:30 The health system response to GDM: Barriers and opportunities
	17:30-17:50 To weigh or not: where do we stand and where do we go next? Barbara Abrams, USA	17:30-17:50 Sonographic Diagnosis of congenital anomalies in Diabetes Yves Ville, France	17:30-17:50 Connecting diabetes in pregnancy to the MNCH agenda: An advocacy perspective
	17:50-18:10 For and against weight loss in obese pregnancy : Weigh gain and diet in obese pregnant women; what should we advise?	17:50-18:10 Critical evaluation - Ultrasound surveillance in Diabetes: Any extra scans needed? Yaron Zalel, Israel	17:50-18:10 Discussion
	18:10-18:30 The role of exercise in reducing the risks of GDM in obese women Raul Artal, USA	18:10-18:30 Options and difficulties of ultrasound in obese pregnant women Ute Schäfer-Graf, Germany	

18:30-20:10	<u>Obesity and GDM – Pregnancy Outcome</u> Chairpersons: Carlo Maria Rotella, Italy & TBA	<u>Long Term Implications on Health and Disease</u> Chairpersons: Edoardo Mannucci, Italy & TBA	<u>Diabetes in Pregnancy Amongst the Indigenous Peoples– a neglected health priority</u>
	18:30-18:50 Adipokines and inflammatory mediators : the link between obesity and GDM Maria Regina Torloni, Brazil	18:30-18:50 GDM and cardiovascular risk after pregnancy Graziano DiCianni, Italy	
	18:50-19:10 Luck, environmental factors or genes? Why do some obese women develop GDM while others do not? Silvia Daher, Brazil	18:50-19:10 Longterm cardiovascular morbidity/mortality in formerly preeclamptic women Gerda Zeeman, The Netherlands	
	19:10-19:30 GDM, obesity and pregnancy outcome Jason Gardosi, UK	19:10-19:30 Diabetes & Women's Health Study-determinants of maternal progression from GDM to T2DM and adverse cardio-metabolic outcomes among offspring Cuilin Zhang, USA	
	19:30-19:50 Morbid obesity and GDM- A Plateau of Risk? Yariv Yogev, Israel	19:30-19:50 WHICH diet composition for prevention of GDM: evidence-based recommendations Jennie Brand-Miller, Australia	
	19:50-20:10 Pharmacological treatment for the obese GDM patient Maria Grazia Dalfrà, Italy	19:50-20:10 Bariatric surgery and pregnancy outcome- the ultimate solution? Eyal Sheiner, Israel	
20:30	<i>Welcome Reception and Greetings</i>		
Friday, March 15, 2013			
	Hall A	Hall B	Hall C
08:00-08:30	<u>Good Morning Florence Opening Lecture</u> The Cochrane Collaboration Contribution to Perinatal Medicine Zarko Alfirevic, UK		
08:30-10:10	<u>Insulin Analogues</u> Chairpersons: Francesco Giorgino, Italy & Hasan Ilkova, Turkey	<u>New Frontiers in Preeclampsia</u> Chairpersons: Secondo Guaschino, Italy & TBA	
	08:30-08:50 Insulin analogs are better than human insulin to control hyperglycemia? Stefano Del Prato, Italy	08:30-08:50 The pathogenesis of preeclampsia: Up-to-date Baha Sibai, USA	

	08:50-09:10 Rapid acting insulin in pregnancy Elisabeth Mathiesen, Denmark	08:50-09:10 Epidemiology and risk factors Gerda Zeeman, The Netherlands	
	09:10-09:30 Long acting-basal insulin in pregnancy Elisabetta Torlone, Italy	09:10-09:30 Obesity and GDM – which is more important as a risk factor for preeclampsia? Salvatore Alberico, Italy	
	09:30-09:50 Insulin analogs and Metformin in GDM: Is there a rationale? David Sacks, USA	09:30-09:50 Gestational hypertension vs. preeclampsia – Is it the same disease? Nir Melamed , Israel	
		09:50-10:10 Endothelial dysfunction in hypertension in pregnancy Grzegorz H. Breborowicz, Poland	
10:10-10:40	<i>Coffee Break, Exhibition and Poster Viewing</i>		
10:40-12:40	<u>New Technologies</u> <i>Chairpersons:</i> Gerry Visser & TBA	<u>New Frontiers in Prediction and Prevention of Preeclampsia</u> Supported by an unrestricted educational grant from Roche <i>Chairpersons:</i> Andrea Tranquilli and Baha Sibai, USA	<u>Metabolic Control in pregnancy: glycemia and beyond</u> <i>Chairpersons:</i> Giorgio Mello, Italy and Moshe Hod, Israel
	10:40-11:00 Keynote lecture: The Promise of Technology in Diabetes Management Francine Kaufman, USA	10:40-11:00 Cardiovascular consequences of placental diseases Eduard Gratacos, Spain	10:40-11:00 Shifting the focus from the prevention of fetal disease to the promotion of fetal health: the role of glycemic control - the Florence experience Giorgio Mello, Italy
	11:00-11:20 The CONCEPTT trial. Rational and design Denice Feig, Canada	11:00-11:20 Risk stratification of hypertensive pregnancy disorders Stefan Verlohren, Germany	11:00-11:20 The role of self blood glucose monitoring in pregnancy Alberto De Leiva , Spain
	11:20-11:40 Do we really need CGMS in pregnancy Aaron Kowalski, USA	11:20-11:40 Critical evaluation: Is prediction of preeclampsia possible? Francesc Figueras, Spain	11:20-11:40 Glycemic variability in pregnancy limits and strengths
	11:40-12:00 Do we really need CSII therapy in T1D pregnancy Matteo Bonomo, Italy	11:40-12:00 Critical evaluation: Is prevention of preeclampsia possible? Jacob Bar, Israel	11:40-12:00 Ketosis and pregnancy: physiopathology and clinical implications Annunziata Lapolla, Italy

	12:00-12:20 Practical aspects of managing pump therapy in delivery Angela Napoli, Italy	12:00-12:10 Which prophylactic therapy should we use in women at high risk for PET 1. Low molecular weight heparin-more than antithrombotic Simcha Yagel, Israel	12:00-12:20 Ketonemia or ketonuria what is the best? (106) Giovanni Sartore, Italy
	12:20-12:40 Closed-loop in T1D pregnancy Helen Murphy, UK	12:10-12:20 Which prophylactic therapy should we use in women at high risk for PET 2. Aspirin- Evidence vs. Theory Irene Cetin, Italy	12:20-12:40 Non Invasive glucose measurements: are we far away for a solution? Pierre Singer , Israel
		12:20-12:40 Discussion	
12:40-14:00	Lunch Break, Exhibition and Poster Viewing and <u>Poster Walk Sessions</u>		
14:00-16:30	<u>DoHAD Session : Developmental Origins of Health and Disease - Mother and Offspring</u> Chairpersons: Boyd Metzger, USA and Gianfranco Gensini Italy	<u>The Maternal - Placental - Fetal Dialogue and Its Influence on Pregnancy Outcome</u> Chairpersons: The Hu Bui, Sweden and Christian Speer, Germany	<u>Italian ISSHP Group</u> Chairpersons: Luca Marozio, Italy & TBA
	14:00-14:20 DOHaD - mechanisms and missed opportunities Mark Hanson, UK	14:00-14:20 Placental origins of Diabetes Gernot Desoye, Austria	13:45-14:00 Low PAPP-A serum levels at 9-11 weeks gestation and adverse outcomes in pregnancy.
			14:00-14:15 Echocardiographic markers of cardiovascular risk after placental related complications and cardiovascular outcome – a 4 years follow up
			14:15-14:30 Pulse wave analysis in early pregnancy: prediction of preeclampsia Luca Marozio, Italy
	14:20-14:40 Interventions to improve pregnancy outcome in obese pregnancy; implications for mother and child	14:20-14:40 Placental – Maternal dialogue and the origin of preeclampsia Berthold Huppertz, Austria	14:30- 14:45 Prognostic role of uterine artery velocimetry in patients with preeclampsia and gestational hypertension Adriana Valcamonico, Italy
			14:45-15:00 First trimester screening for preeclampsia: circulating mRNA and placental factors- based on the experience on CVS and placenta at term Antonio Farina, Italy

	14:40-15:00 Lifestyle Interventions to Reduce Risk of Diabetes among High Risk Pregnant and Postpartum Women	14:40-15:00 Perinatal Stroke- Does it belong in the spectrum of placenta mediated complications Michael Paidas, USA	15:00-15:15 Metabolic evaluation of preeclampsia: role of the inositol in treatment and prevention Marco Scioscia, Italy
			15:15-15:30 Late preeclampsia with AGA fetuses: a maternogenic disease. Enrico Ferrazzi, Italy
	15:00-15:20 The long term implications on metabolic and cardiovascular problems in the mother and offspring, data from the Chinese cohort in the HAPO study Terence Lao Tzu Hsi, China	15:00-15:20 Maternal stress - the placenta and pregnancy outcome Felice Petraglia, Italy	15:30-15:45 Incidence of placental abruption in different types of hypertension in pregnancy Massimo Lovotti, Italy
			15:45-16:00 Preeclampsia, gestational hypertension and fetal growth in twin pregnancies
	15:20-15:40 Preventing diabetes after gestational diabetes – the LINDA study Maria Inês Schmidt, Brazil	15:20-15:40 Fetal growth restriction - The role of the placenta Irene Cetin, Italy	16:00-16:15 Rate of Preeclampsia in donor oocyte IVF pregnancy
	15:40-16:00 PET and risk of future metabolic syndrome - from pregnancy complications to metabolic syndrome Jacob Bar, Israel	15:40-16:00 Diagnostics of the placenta using MRI Daniela Prayer, Austria	16:15-16:30 Long term follow up of preeclampsia – evaluation of cost-effectiveness Andrea Tranquilli, Italy
	16:00-16:15 Abnormal fetal growth leading to abnormal neonatal growth Gerry Visser, The Netherlands	16:00-16:15 Structural and Functional Organization of the Chorionic Arteries in the Human placenta Ariel Jaffa, Israel	
	16:15-16:30 Long term consequences of preterm birth Umberto Simeoni, France	16:15-16:30 Studying Trans-Placental Transport - A Biological Model of the Placental Barrier David Elad, Israel	
16:30-17:00	<i>Coffee Break, Exhibition and Poster Viewing</i>		
17:00-18:00	<u>Obesity and Beyond</u> Chairperson: Domenico Fedele, Italy & TBA	<u>New Frontiers in Diabetes and Pregnancy</u> Chairpersons: V. Seshaya, India & Guido Menato, Italy	<u>Lessons from the Bench</u> Chairpersons: Ceriello Antonio Italy and Marta Szymankiewicz , Poland
	17:00-17:15 Maternal Obesity and Transgenerational Effects in animals Mulchand S. Patel, USA	17:00-17:15 LBW and maternal autoimmune disease Gianpaolo Donzelli, Italy	17:00-17:15 Oxidative Stress programming of adult disease Giuseppe Buonocorre, Italy

	17:15-17:30 Obesity and infertility Raoul Orvieto, Israel	17:15-17:30 Estimating the Risk after Gestational Diabetes Mellitus: Can we improve the information from the postpartum OGTT? Christian Göbl, Austria	17:15-17:30 IGF system in pregnancy Sciacca Laura, Italy
	17:30-17:45 Bariatric surgery in the prevention of type 2 diabetes Nicki Liberman, Israel	17:30-17:45 Fetal gender and perinatal outcome in diabetic pregnancy Alexandra Kautzky Willer, Austria	17:30-17:45 Differential modulation of placental micro and macrovascular endothelial function by insulin receptors A and B in gestational diabetes Luis Sobrevia, Chile
	17:45-18:00 Embryo-Derived Preimplantation Factor (PIF): Novel Paradigm for Metabolic Syndrome Eytan Barnea, USA	17:45-18:00 Myoinositol as insulin sensitizer in pregnancy Fabio Facchinetti, Italy	17:45-18:00 Metabolomics in infants of diabetic mothers Carlo Dani, Italy

Saturday, March 16, 2013

	Hall A	Hall B	Hall C
08:00-08:30	<i>Good Morning Florence Opening Lecture</i> Reproduction and its Impact on Health and Disease Michael Paidas, USA		
08:30-10:30	<i>Novonordisk Session -</i> Chairperson: Moshe Hod, Israel & TBA	<i>Abnormal fetal growth - Challenging the extremes</i> Chairpersons: TBA	<i>Session Title: TBA</i> Chairpersons: Gianfranco Scarselli, Italy and TBA
	08:30-08:40 Welcome and introduction Moshe Hod, Israel	08:30-08:50 Defining IUGR and macrosomia: Should we use customized birth weight? Jason Gardosi, UK	08:30-08:50 The suitable diagnostic criteria of GDM applied in China Huixia Yang, China
	08:40-08:55 Evidence based medicine in diabetic pregnancy: the use of insulin analogues	08:50-09:10 Early vs. Late IUGR – differences in pathogenesis, diagnosis and management Gerry Visser, The Netherlands	08:50-09:10 Problems and Prevention of Diabetic Complications in Type 2 Diabetic Pregnancies in Japan Y. Omori, Japan
	08:55-09:10 What are the challenges of gathering insulin evidence in diabetic pregnancy?	09:10-09:30 Management of IUGR during the late-preterm and early-term period Nir Melamed, Israel	09:10-09:30 Early screening for gestational diabetes- the Indian experience Vijayam Balaji, India
	09:10-09:25 Regulatory requirements, what evidence is good enough?	09:30-09:50 Stillbirth and Fetal Growth Restriction Federico Mecacci, Italy	09:30-09:50 Insulin resistance in type I diabetes mellitus and pregnancy

			E. Wender-Ozegowska, Poland
	09:25-09:45 Panel Discussion	09:50-10:10 How reliable is ultrasound and Doppler in prediction of extreme fetal growth? Katia Bilardo, Italy	
	09:45-09:55 Interactive Debate	10:10-10:30 Can fetal macrosomia be predicted and prevented? Michael Turner, Ireland	
	09:55-10:05		
	10:05-10:25 Discussion with Audience		
	10:25-10:30 Summary Moshe Hod, Israel		
10:30-11:00	<i>Coffee Break, Exhibition</i>		
	Hall A		Hall B
	Hall C		
11:00-13:30	<u>At last Maternal Medicine Meets Fetal Medicine</u> <u>Pre-pregnancy and the first Trimester – A window of opportunities for prevention</u> <i>Chairpersons: Roberto Romero and Gian Carlo Di Renzo</i>		
	11:00-11:10 Setting the scene: Maternal Medicine meets Fetal Medicine Moshe Hod, Israel		
	A. Pre- pregnancy evaluation : Fit to Conceive and Deliver		
	11:10-11:30 Obesity Annunziata Lapolla, Italy		
	11:30-11:50 Diabetes Harold de Valk, The Netherlands		
	11:50-12:10 Hypertension Baba Sibai, USA		
	B. Conception : The Maternal – Placental - Fetal Dialogues		
	12:10-12:25 Early signs: The Feto-placental dialogue and PET Berthold Huppertz, Austria		
	12:25-12:40 Late and long term signs : The Feto-placental dialogue and Diabetesity Gernot Desoye, Austria		

	12:40-13:10 C. <u>The first Trimester ; Turning the pyramid of prenatal care</u> Kypros Nicolaides, UK		
	13:10-13:25 D. The 3rd Trimester – Delivery ; Induction of labor or expectant management – The GINEXMAL study Salvatore Alberico, Italy		
	13:25-13:30 Discussion		
13:30-14:00	<i>Closing & Best Abstract Awards</i>
